

Renova Post-Treatment Care

- ❖ You can expect some redness, mild discomfort, and peeling for up to 72 hours after each session.
- ❖ You should keep the treatment area clean for 72 hours after treatment. This includes washing your hands before touching your face and applying any ointments or residual products prescribed by the provider.
- ❖ Avoid wearing makeup for 72 hours after treatment.
- ❖ Avoid strenuous activity for 24 hours after treatment.
- ❖ Avoid using all skin care products that are not cleared by the provider until the end of treatment.
- ❖ If sunscreen is not a part of your daily skin care routine already, we recommend using SPF 50 and up constantly after treatment. Don't forget to reapply sunscreen every two hours.
